

NEVER CATCH A BREAK

Marc E. Bassy

Feel whenever you call, my back's on the wall
I picture it all

Wide-awake, I get over-dedicated
Close the shades, I get over-stimulated
Knowin' that you're out there prolly layin' somewhere naked
I can't even say it baby, so I just stay faded, daily
Basically, I traded all my hesitation for a quick replacement
Actin' like I like this chick and this new life that I created
Hurry cause I gotta face it
If you think that I won't make it
Tell me that I gotta face it
Leave me soon as somethin' changes

I go through the motions just to find some motion
I've been M.I.A
Feelin' like I lost my mind too many times, the crumbs left on my plate
Yeah I savor every memory of us, I don't let them fade away
Feelin' like I lost my mind too many times, I never catch a break

Feel whenever you call, my back's on the wall
I picture it all
Never wanted it more, was always unsure
Now what's left in store for me?

How many times did we define it?
Tried to find a silver linin'
Would you let me change your climate
'Stead of blamin' it on time, and everything leaves me reminded
See your face beneath my eyelids
Tried to run but there's no hidin' from you

I go through the motions just to find some motion
I've been M.I.A
Feelin' like I lost my mind too many times, the crumbs left on my plate
Yeah I savor every memory of us, I don't let them fade away
Feelin' like I lost my mind too many times, I never catch a break

Feel whenever you call, my back's on the wall
I picture it all (picture it all, I)
Never wanted it more, was always unsure
Now what's left in store for me?
Feel whenever you call, my back's on the wall
I picture it all
Never wanted it more, was always unsure
Now what's left in store for me?
