

Nothing in This World

Marc E. Bassy

Another midnight to hit the road
I hope you burn this bridge before you go
If I get lonely I'll never know
There's always something to steer my soul

Fate can't just be fate
Gotta depend on something
You're some kind of way that I could not see coming
Everything was perfect for a moment in my life

Nothings gonna bring you back once you cross the line
Words can never tell you how it feels to be unfurled
Strung out over nothing but the girl
It's like nothing in this world

Another daydream a quick escape
To wipe the slate clean that's all it takes
You're not a criminal this ain't no trial
But you get off still, a perfect smile

Fate can't just be fate
Gotta depend on something
You're some kind of way that I could not see coming
Everything was perfect for a moment in my life

Nothings gonna bring you back once you cross the line
Words can never tell you how it feels to be unfurled
Strung out over nothing but the girl
It's like nothing in this world

Fate can't just be fate
Gotta depend on something
You're some kind of way that I could not see coming
Everything was perfect for a moment in my life
