

Over The Water

Marc E. Bassy

Over the water [x3]

Over the water [x3]

Fuck these weak ass bitches

All they do is nothing, then they want your business mane

Can't deal with my mistress, life been taking over

So let me shoot my target mane

Where you think you going?

On the way up, they birds and you know it now

We ain't gonna be stone out for no one

You know I'll carry you [x2]

Over the water, over the water

Six A.M. this morning, you break through your conscious

You show up for no one baby

Try and be supportive, relapse in that body

Something like we can have a baby

Where was this thing going?

On the way up like we fighting through with no denial

Hoping after it all went down

You know I'll carry you [x2]

Over the water, over the water

I love this money, I'm counting this money, she count it for me

I'm smoking that weed, it's OG Kush, and sticky like honey

I'm yankin' like really, I want a millie, the kid, no Gillie

They kill ya like Billy, I don't steer clear of Henny and Remy

Time is tickin', my waves dippin', I'm on a mission

No competition, they sneak dissin', this thang kickin'

I'm [?] bitches, they keep wishing, they don't listen

I got a Mrs, girl mind your business

We holdin' it down, she love me a lot, I love'em all

Chippa the nigga, you know I'm the ball

(You know I'll carry you)

I'm pullin' her hair, her legs in the air, I'm strokin' her dee
p

I put her to sleep

(You know I'll carry you)

You know I'll carry you [x2]

Over the water, over the water
