Marc E. Bassy

Don't give up your power  
Don't give up your power, babe  
Don't give up your power  
Don't give up your power  
You're the sexiest one  
I ever encounter  
When I'm cooking in the kitchen, ayy  
Want to throw you on the counter  
But you give up too much (Too much)  
Gettin' mad every hour (Every hour, babe)  
Girl, alone you're enough (Enough)  
Stop giving your power  
Stop giving your power  
Stop giving your power (Yeah, babe)

Ask myself  
"Wasn't you raised by women?"  
Ooh, why you out here sinnin'?  
Maybe the devil, how they all wanna get it (Let it go)  
And tonight I feel like living (You should know)

Fresh out the shower  
Do her make-up by the phone on the counter  
Girl talk take at least 'bout an hour  
Girls talk, I'm sendin' both flowers  
Same bouquet, same damn message  
Tryna clean up the same damn messes  
Goin' back, yeah, you always regret this  
But it's you who were the next on his checklist  
And you got a new view now (View now)  
Every bitch bad in your crew now (Crew now)  
Friday and you're swimming in his pool now (Pool now)  
Saturday and you back then a fool now  
Sundays always are the worst  
Still up like church  
Prayin' you come back down to earth  
Got your whole life in your purse  
Told me that you know your worth, so

Don't give up your power (Power)  
Don't give up your power, babe (Power, babe)  
Don't give up your power (Power)  
Don't give up your power  
You're the sexiest one  
I ever encounter  
When I'm cooking in the kitchen, ayy  
Wanna throw you on the counter  
But you give up too much (Too much)  
Gettin' mad every hour (Every hour, babe)  
Girl, alone you're enough (Enough)  
Stop giving your power  
Stop giving your power  
Stop giving your power

To [?] was the mission  
(Powers)  
Had to let you go (Powers, babe)  
You deserve more than a million (Powers)  
Had to let you go  
(Powers, babe)  
Just 'cause he affords how you livin'  
Girl, don't let that money be a prison  
Had to let you go (Powers)  
Try to tell you but you never listen  
Try to send you signs, how you miss 'em?
