

See Me Out

Marc E. Bassy

Baby, slow down
You're moving too fast
I wanna see you touch the ground
Back in LA, one night in town
Since you got a runway
You don't ever stick around yeah

I said
I think you look a little bit familiar
Remind me your name, she laughed, said boy

If you see me out, baby say my name
If you think I'm sexy put your nail in my cocaine
I'm gon' get you this paper, get your friends on a plane
Last one did you wrong, moving onto better things

Hey, time flies
When you're having fun
Don't be surprised
If you get played just wave and smile
[?] ain't the type
To sit around and cry about it

I said
I think you look a little bit familiar
Remind me your name, she laughed, said "boy I'll kill ya"
I think you look a little bit familiar
Remind me your name, she said oh

If you see me out, baby say my name
If you think I'm sexy put your nail in my cocaine
I'm gon' get you this paper, get your friends on a plane
Last one did you wrong, moving onto better things
