

## Sister Interlude

Marc E. Bassy

Hey little sister of mine  
Would you believe me if I told you it's gonna be alright  
Hey little sister of mine  
Would you agree if I said that it's gonna work out in time  
I know you felt betrayed  
Your momma always tried her best to give you everything  
But, you know that I'm so proud  
It takes courage to love and live your life out loud  
And you do that well  
Hey little sister of mine  
Would you believe me if I told you it's gonna be alright
