

# Skin

Marc E. Bassy

It's just a Tuesday night  
You're the last one left in mind  
Guess it's matter over mind  
But my heart don't seem to mind  
And you look different in this light  
Did you get closer, am I right?  
But we should really close our eyes  
'Cause we already hit the lights

Girl, yeah, that body keeps moving  
I'm losing to that silhouette  
Self-control, lost all control  
Now we're both laying here in this bed

Wanna feel your skin, skin on mine  
Out here crossing lines, no we're  
Not friends, not tonight  
Promise this time is the real last time, yeah  
Skin, skin, on you  
Show me what to do, when I  
Make it feel brand new  
Tension is beating

I wanna feel your skin, skin, skin, skin, skin, skin  
I wanna feel your, skin, skin, skin, skin, skin, oh-oh

Heartbreak song, killer time  
This the time when I shine  
Write about you in my mind  
Until these visions come to light

Don't lie  
You knew you was gonna let me  
'Fore you even hit my line  
Girl, it ain't no crime  
Don't try  
To say that I'm not the one  
That you gon' be taking home tonight  
Girl, I know your type

Girl, yeah, that body keeps moving  
I'm losing to that silhouette  
Self-control, lost all control  
Now we're both laying here in this bed

Wanna feel your skin, skin on mine  
Out here crossing lines, no we're  
Not friends, not tonight  
Promise this time is the real last time, yeah  
Skin, skin, on you  
Show me what to do, when I  
Make it feel brand new  
Tension is beating

I wanna feel your skin, skin, skin, skin, skin, skin  
I wanna feel your, skin, skin, skin, skin, skin, oh-oh
