

# Talk About

**Marc E. Bassy**

What we got left to talk about  
We killed up all the coke talk  
What we got left to talk about  
Another body in the white chalk  
What we got left to pray about  
Them hooded boys burned every cross  
Was it all a conspiracy  
Shit we still got the moonwalk

What we got left to talk about  
Baby Its politics as usual  
The only change comes remote control  
Don't waste your breath You'll sell you soul  
Baby Its politics as usual

We done killed up all the coke talk  
I don't understand how my plug walk  
Been arrest five times they don't read between the lines  
When its white on white crime  
It's a fifty dollar fine  
Got a trap mind with a white collar spine  
Meanwhile my freestyles so blind  
I'll meet a motherfucker any place any time  
What we got left to talk about  
You could have made the league  
Had a good girl but she turned to a freak (talk about)  
Yeah they killing overseas  
Yacht coke  
Fill up with the refugees (talk about)  
Yeah I'm not even tripping nowadays  
I don't hear the words that they say (talk about)  
It was real from the jump  
Hate ye hate trump  
But who doing what they want

What we got left to talk about  
Baby Its politics as usual  
The only change comes remote control  
Don't waste your breath You'll sell you soul  
Baby Its politics as usual

What we got left to talk about  
If it ain't about the money then it's coming from the money  
If you really with the shit then baby could you ever love me  
If it ain't about the money then it's coming from the money  
If you really with the shit then baby

Talking Talking Talking  
You just going to post it  
Talking Talking Talking  
You not going to protest  
Brown goals white fist going through the motions  
Talking Talking Talking  
Oh it's just excuses
