

# Trial By Fire

Marc E. Bassy

And it's that trial by fire  
Oh I like it  
Trial by fire

It's quarter to five (hmm hmm)  
I'm down by the bar (hmm hmm)  
You whisper to me yeah yeah (hmm hmm hmm)  
You want to go far (hmm hmm hmm)  
Let's do some freak shit baby (uh)  
Before we get old (oh oh)  
I can be a good boy baby I do what I'm told

And it's that trial by fire  
Oh I like it  
Trial by fire  
You know you never could deny  
We keep getting higher  
We'll get what we desire  
It's that trial by fire

You crossing my line (hmm)  
Is never a crime (hmm hmm)  
What we can try  
Anything under the sky (ooohhh)  
Shorty never come side ways  
Unless I'm hitting that sideways  
Put my tongue in the right place  
You know I got a hot taste

And it's that trial by fire  
Oh I like it  
Trial by fire  
You know you never could deny  
We keep getting higher  
We'll get what we desire  
It's that trial by fire

Girl I'm going to reach places you never knew  
Feel like I need to prove myself when I'm loving you  
And all I'm wanting to see baby is you riding on me baby  
Switch it up for round three baby  
If you follow my lead baby ah ah

And it's that trial by fire  
Oh I like it  
Trial by fire  
You know you never could deny  
We keep getting higher  
We'll get what we desire  
It's that trial by fire

And it's that trial by fire  
Oh I like it  
Trial by fire  
You know you never could deny  
We keep getting higher  
We'll get what we desire

It's that trial by fire
