

Wait For You

Marc E. Bassy

You say it's bad now, now, now
But you want it bad, right now
You say it's bad now, now, now
But you want it bad, right now

I'll give you pleasure
You ain't gonna find no better
I ain't tryna put no pressure, but there's
Somethin' to this
Somethin' to this

She don't mind
Let me run wild all night
Let me back ride on time
Yeah I go a little far sometimes
Yeah I go a little far sometimes
If she stick with me line for line
She said "Baby, don't waste my, don't waste my, don't waste my time"
Hit it so good, feel like the real thing
You can count on me, bring you down on your love
You know that I love it when you scream my name
You know I'll be there, bring you down on your love, babe

You say it's bad now, now, now (Say that it's bad now)
But you want it bad, right now (Right now)
You say it's bad now, now, now (Say that it's bad now)
But you want it bad, right now (Right now)

I'll give you pleasure
You ain't gonna find no better
I ain't tryna put no pressure, but there's
Somethin' to this
Somethin' to this

It's my pleasure to pleasure you
After all we've been through
Girl it's true
You know that it's my pleasure to pleasure you
After all we've been through
Girl it's true

I'll give you pleasure
You ain't gonna find no better
I ain't tryna put no pressure, but there's
Somethin' to this
Somethin' to this
