

# Dracula X!

Marc Hudson

Alive under the blackened skies  
The hunter waits in disguise  
For the evil one's in sight tonight  
And the time is right

Behind veils of a masquerade  
Descend brave and nameless heroes  
We will strike tonight  
Protect what's right  
Beneath the cover of moonlight

For the sake of mankind we must lead the blind  
And vanquish all the demons  
Across the devil's red sand  
Through the archways grand  
A never-ending maze

See the angels of light ever falling  
Voices on high ever calling  
Now is the time to make a stand

We strike, fighting through hordes of undead  
Searching the chambers unending  
For our one desire, the great vampire  
And banishing his soul with fire

See the angels of light ever falling  
Voices on high ever calling  
You will die now and leave this world!

In the castle walls  
Where the demons crawl  
We will end this reign of endless night  
As the palace burns  
Justice shall return  
And lift the shadows that once eclipsed the earth  
Until the day you rise again

When the sun shines again over the promised land  
Forever enshrined upon our hands, the fate of every man  
See the sunlight fade away  
Behold the night again and witness  
The rising dust, call for blood, breaking the minds of men

Yet the fear inside falls away tonight  
For our destiny awaits us  
As the prophecies spoke through the ages told  
The sun will shine again

Leave behind all of life's fleeting stories  
Come forth tonight into glory  
Raise your swords high and storm the gates

In the castle walls  
Where the demons crawl  
We will end this reign of endless night  
As the palace burns

Justice shall return  
And lift the shadows that once eclipsed the earth  
Until the day you rise again

In the castle walls  
Where the demons crawl  
We will end this reign of endless night  
As the palace burns  
Justice shall return  
And lift the shadows that once eclipsed the earth  
Until the day you rise again
