

# Right on Time

Marcel Palonder

Like a fire in winter, you brought warmth into my soul  
And chased the cold away  
You know I can't remember my life without you here  
It seems like yesterday

I was a poet without rhyme  
I was a joker without laughter  
I was an actor, forgetting the simplest lines  
Until you said:

Take my hand, hold tight  
We're flying high  
Sure our stars will shine  
This love of ours is right on time

Like a morning sunrise, bringing light in from the dark  
You woke my sleeping heart  
Ever slowly, I lay down my card  
'Cause you lit the spark

I was an angel without wings  
I was an ocean without water  
I was a singer who ran out of songs to sing  
Until you said:

Take my hand, hold tight  
We're flying high  
Sure our stars will shine  
This love of ours is right on...

Take my hand, hold tight  
We're flying high  
Sure our stars will shine  
This love of ours is right on...

Take my hand, hold tight  
We're flying high  
Sure our stars will shine  
This love of ours is right on...

Take my hand, hold tight  
We're flying high  
Sure our stars will shine  
This love of ours is right on...

Take my hand, hold tight  
We're flying high  
Sure our stars will shine  
This love of ours is right on...

Take my hand, hold tight  
We're flying high  
Sure our stars....
