Innocence

Marcus Collins

I remember when we were so young Life was just a game and we were always on the run We were just two crazy vagabonds Always in and out of trouble but we meant nobody harm But everything is changed now we grew too fast You are talking so strange now How did we lose our innocence? Whatever happened to that innocence we used to know? Innocence I wish that we could bring it back again just like be fore nnocence I remember times when love was all all we ever had to give us Shelter from the storm we ran these streets together side by si de Now we are face to face there is only anger in your eyes Cause everything has changed now we grew too fast You are talking so strange now How did we lose our innocence? Whatever happened to that innocence we used to know? Innocence I wish that we could bring it back again just like be fore Innocence Tell me please am I going crazy was it just a dream Am I rewriting pages of our history Cause I thought it was always about you and me You and me Innocence Whatever happened to that innocence we used to know? Innocence I wish that we could bring it back again just like be fore Innocence Whatever happened to that innocence we used to know? Innocence I wish that we could bring it back again just like be fore Innocence
