

Feel

Marcus & Martinus

Something isn't right
My heart feels like an empty city
Sleepless in the night
Think I might be lost and lonely

I, I just wanna fly high
Tell me how it feels like
I just wanna feel it, yeah
I, I just wanna fly high
Remind me how it feels like
I just wanna feel it, yeah

Oh, yeah
Just tell me how it feels like
Oh, la la la la
Just tell me how it feels like

Something's not hurting right
Like nobody is waiting for me
Did I ever cross your mind?
I wish that you can come and show me

I, I just wanna fly high
Tell me how it feels like
I just wanna feel it, yeah
I, I just wanna fly high
Remind me how it feels like
I just wanna feel it

Oh, yeah
Just tell me how feels like
Oh, la la la la
Just tell me how feels like

I, I just wanna fly high
Tell me how it feels like
I just wanna feel it, yeah
I, I just wanna fly high
Remind me how it feels like
I just wanna feel it, yeah

Something isn't right
Like nobody is waiting for me
I wish that you can come and show me
