My girl
She beats everybody
My girl
She don't have to try
Like my jam
She's the vibe I'm vibin'
One chance
Tryna make her mine

I'm up all night
Dancin' to half past five
Wanna be by your side, that's how we do
'Cause we don't care about time
We here to shut it down
There's only you and I
That's how we do

Ooh
She's the life of the party
We're just getting started
Oooh
She's the life of the party
And I'm the only one invited
Said I'm the only one invited
Yeah I'm the only one invited
She's the life of the party
We're just getting started

My girl
She got everything, baby
My girl
Better than my dreams
She's the realest thing so there's no need for fantasies
That's my girl
