

It's Christmas Time

Marcus & Martinus

Oh yeah
It's Christmas time again
Feel like a child again
How you got me smiling
Like the tree, I'm shining
Bring on the caroling
Bring on the cold
We can stay at mine, keep it nice and warm
(Yeah)

Hey Santa, If you're listening
I don't have any wishes
'Cause I got everything I need
Yeah
The light shines even brighter
My heart feels so much lighter
I got someone who's good to me

Baby, you and me is a daydream
We got lots of love, baby
I must spend it on you this Christmas
Kiss me
Feels so good when You're with me
I got love 'cause you give me
I must spend it on you this Christmas

Baby just let it snow
I found the mistletoe
We can move in closer
Cuddle on the sofa
It's sweet like a candy cane
Warm like a fire
I thank my lucky star that you're here tonight

Baby, you and me is a daydream
We got lots of love, baby
I must spend it on you this Christmas
Kiss me
Feels so good when you're with me
I got love 'cause you give me
I must spend it on you this Christmas

Hey Santa, if you're listening
I don't wish for anything
No, I got you
Yeah, I got you

Hey Santa, thanks for making me the happiest I've ever been
My wish came true

Baby, you and me is a daydream
We got lots of love, baby
I must spend it on you this Christmas
Kiss me
Feels so good when you're with me
I got love 'cause you give me
I must spend it on you this Christmas

Baby, you and me is a daydream
We got lots of love, baby
I must spend it on you this Christmas
Kiss me
Feels so good when you're with me
I got love 'cause you give me
I must spend it on you this Christmas

Baby, you and me is a daydream
We got lots of love, baby
I must spend it on you this Christmas
Kiss me
Feels so good when you're with me
I got love 'cause you give me
I must spend it on you this Christmas
