Marcus & Martinus

Give all my heart if you will keep it
But you better keep it right
You got me under your skin
And I feel ya deep from within
You better follow tonight, alright?

Tonight we're gonna li-li-light it up
Tonight we're gonna li-li-light it up
I wanna see the light
We're burning in the sky
Tonight we're gonna li-li-light it up

Bun up inna dis, get bun up inna dis
Hot like a scorching sun up inna dis
Turn the music, tun it way up
When we si the lighters dem flash up inna dis

Fire blazing through the roof
