

# Love You Less

Marcus & Martinus

Yeah  
Love you less  
Love you less, yeah  
Let's go!

Maybe you just never thought about how you treat me (shit)  
Baby you just never figured out, so I leave it  
Coulda woulda shoulda made it right, but you tweaking (tweak tweak tweak, ye  
ah)  
Down with you for life but Imma bounce, skeet skeet em

You think grass is greener on the other side  
Still you throwing stones in a glasshouse  
(Killed the vibe)  
How you pointing fingers with your pants on fire  
Someone kissed and told so I know

Today I might hate you more  
But I can never love you less, no no  
I'm fucking done with all this run around  
I know that it sounds so raw  
We used to be rocksteady, rocksteady  
We used to be rocksteady, rocksteady  
Now I hate you more  
But I can never love you less, no no  
No no, no

You jelly  
You jelly, jelly

Now you jelly cuz without you I'm still sparkly  
Saw me pull up hoping out with two and you lost it  
Shoulda coulda woulda made a life but tonight we off it  
Tried to break my heart I ally you up and you dunked it

You think grass is greener on the other side  
Still you throwing stones in a glasshouse  
(Killed the vibe)  
How you pointing fingers with your pants on fire  
Someone kissed and told so I know

Today I might hate you more  
But I can never love you less, no no  
I'm fucking done with all this run around  
I know that it sounds so raw  
We used to be rocksteady, rocksteady  
We used to be rocksteady, rocksteady  
Now I hate you more  
But I can never love you less, no no  
No no, no

Change like seasons  
We used to be summertime  
Now you turn wintertime cold  
Now you turn wintertime cold  
Loyal and the reason  
Is that I can't stop bleeding

And you don't tell me nothing but I know  
No you don't tell me nothing but I know

You think grass is greener on the other side  
Still you throwing stones in a glasshouse  
(Killed the vibe)  
How you pointing fingers with your pants on fire  
Someone kissed and told so I know

Today I might hate you more  
But I can never love you less, no no  
I'm fucking done with all this run around  
I know that it sounds so raw  
We used to be rocksteady, rocksteady  
We used to be rocksteady, rocksteady  
Now I hate you more  
But I can never love you less, no no  
No no, no

Hey hey, never love you less, yeah  
Hey hey, never love you less, yeah
