Remind Me

Marcus & Martinus

Remind me where we used to go
We were dancing till the break of dawn
You took me high, you took me low
We were dancing to the radio

Remind me where we used to go
We got lost in our favourite song
I'd never, never wanna know
If we ever, ever let this go

All we had was love
You took me higher
Give me that sweet, sweet fire
In the setting sun
The tide got higher
And we caught fire

All we had was love
You took me higher
Give me that sweet, sweet fire
In the setting sun
The tide got higher
And we caught fire

(We were dancing to the radio)
(Dancing to the radio)

Remind me where we used to go
We were dancing to the beat of love
We took it high, we took it slow
We were dancing to the radio

Remind me where we used to go
We got lost in our favourite song
I'd never, never wanna know
If we ever, ever let this go

All we had was love
You took me higher
Give me that sweet, sweet fire
In the setting sun
The tide got higher
And we caught fire

All we had was love
You took me higher
Give me that sweet, sweet fire
In the setting sun
The tide got higher
And we caught fire

(We were dancing to the radio)
(We were dancing to the radio)

(Let's go!)
Ain't nobody, ain't nobody, ain't nobody like you
