

With You

Marcus & Martinus

Thought I was fine
Being all alone in my mind
I blinked and years went by
Wish we could've said our goodbyes

But I was busy wasting my lazy days, on phones and games
Been sleeping half my life away
I know I'm kinda running late
Can't turn back the time, time I wish I was wasting with you

Time I wish I wasted with you
Time I wish I wasted with you
Time I wish I wasted
Can't turn back the time, time I wish I was wasting with you

Wish you were here
So that I could show you I care
I know you couldn't stay
If I could've seen you again

Then I would've never wasted them on lazy days, on phones and games
Been sleeping half my life away
I know I'm kinda running late
Can't turn back the time, time I wish I was wasting with you

Time I wish I wasted with you
Time I wish I wasted with you
Time I wish I wasted
Can't turn back the time, time I wish I was wasting with you, you
Oh, with you
Yeah, I wish that I could waste it with you, you
Oh, with you

All the time I wasted on lazy days, on phones and games
Been sleeping half my life away
I know I'm kinda running late
Can't turn back the time, time I wish I was wasting with you

Time I wish I wasted with you (With you)
Time I wish I wasted with you (With you)
Time I wish I wasted
Can't turn back the time, time I wish I was wasting with you, you
Oh, with you
Yeah, I wish that I could waste it with you, you
Oh, with you

Time I wish I was wasting with you
