

**cut!**

**Maren Morris**

I've got clear skin from all the sleep  
Clear mind from therapy  
Yoga four days a week  
How does she do it?  
On time, never late  
Find time to meditate  
Yeah, these days I'm always great  
How does she do it?

I'm such a pro  
Put a hell of a show on  
As soon as I close that door shut

I'm screaming "cut"  
I need a moment to just  
Let my tears fall where they want  
Honestly, fuck  
I've held it in long enough  
I give it all that I got  
I'm screaming "cut"

Don't cancel any plans  
I'm present with every friend  
I still trust every man  
How does she do it?

I know all my lines  
I'm annoyingly fine  
Till the silence at night calls my bluff

I'm screaming "cut"  
I need a moment to just  
Let my tears fall where they want  
Honestly, fuck  
I've held it in long enough  
I give it all that I got  
I'm screaming

Cry my eyes out  
I give myself permission  
Every good show  
Needs an intermission  
Cry my eyes out  
I give myself permission  
Every good show  
Just needs an intermission
