Don't tell me that you got better plans  
For those velvet hands  
They're in demand  
Don't tell me that you're not a little curious  
Don't be so serious  
It can be only us  
If you want more than your eyes on me, yeah  
You can let me know privately

RSVP  
Bring your love to me, yeah  
It's an open invitation  
To an all-night situation  
If I'm where you wanna be  
RSVP  
I'm a fun party, yeah  
All you gots to bring your loving  
'Cause I ain't wearing nothing  
Nothing you can't take off me  
RSVP

I'm a glass of good whiskey with your name on it  
Looking for your lips  
And your fingerprints  
This floor is waiting for my black dress to fall  
Somewhere in the hall  
So don't take too long  
Watch the sweat fall like confetti, yeah  
Wake up in my big Cali king
