

Cold Summer

Mareux

Oh young girl living alone
Your father wishes he were still at home
Near the ocean near the valley I know
You're always angry 'cause the answer is no

I don't care what your mother says
I see me and you
I don't fear all the negative press
We are tried and true
They never trust what they never had
Live how you want or all your tears will be sad
I can't change your mind but I can mend your heart

Ooo baby
Oh, ooo baby
Oh, ooo baby
Oh, ooo baby

Told your soul that I'm perfect for you
Lonely girl everything that you do
Drives me mad, drives me mad
Told your soul that I'm perfect for you
Lonely girl everything that you do
Drives me mad, drives me mad
Drives me mad, drives me mad
