

If it's in my life it's on my mind  
I wanna talk so we don't end up lying  
I wanna be with you life every night  
Can you tell I've died a million times

You make it feel just like a dream  
All the things you do for me, I see  
Thinking of you every fucking time  
I will love you for the rest of my life

If it's in my life it's on my mind  
I wanna talk so we don't end up lying  
I wanna be with you life every night  
Can you tell I've died a million times

Let's kill the lights and close the door  
Can you tell me what we're waiting for  
Am I everything you wanted  
Make me kiss the ground you walked in

If it's in my life it's on my mind  
I wanna talk so we don't end up lying  
I wanna be with you life every night  
Can you tell I've died a million times
