

I heard the music from a couple streets over  
I went down  
All the way down  
The kind of night that turns you over  
I went down  
All the way down  
I felt a fire underneath me  
I went down  
All the way down  
Seduce the crowd and make it look easy  
I went down  
All the way down

I went downtown  
I took the river  
What was I looking for?  
Who am I searching for?

I went downtown  
I took the river  
What was I looking for?  
Who am I searching for?

I went downtown  
I went downtown
