

Each time I see you
Like a glass breaking
You kiss me like you used to
We don't belong
Together we're hated
Tragedies waiting for us

When are you coming home?
I'm not coming home again
When are you coming home?
I'm not coming home again

Every sulken glance
I'm a little more broken
Our love was porcelain

Something isn't right
It was far from what it seemed
We were never in love
It was only a dream

We were never in love
It was only a dream

When are you coming home?
I'm not coming home again
When are you coming home?
I'm not coming home again

I was only waiting for tomorrow
You were never giving me a chance
Told me you would love me through the sorrow
I was only trying to understand

I was lonely
I was lonely
I was lonely
I was lonely
I was lonely
I was lonely
I was lonely
I was lonely
