Baby it's okay I don't really mind
You were fine last night
Now you're crying your eyes
I'll be there for you baby anytime
I would die for you if it's what you like

Baby it's so hard to be away
I just want to be back in your arms
It's so hard to work baby hard enough
When I think of you – and our love

Baby it's okay I don't really mind
You were fine last night
Now you're crying your eyes
I'll be there for you baby anytime
I would die for you if it's what you like
