

## Sail

Mareux

I have myself  
I don't need anyone else (don't need anyone else)  
A ruined leather soul (ruined leather soul)  
Is all I have ever felt (all I have ever felt)  
But all I need is a flash bulb  
To redden my eyelids (redden my eyelids)  
Follow me into my world (into my world)  
I'll show you where my mind lives (show you where my mind lives  
)

Sail, with me  
Sail, with me  
Sail, with me  
Sail, with me  
Oh sail, with me (with me)  
Oh sail, with me (with me)  
Oh sail, with me (with me)  
Oh sail, with me (with me)

Sail, with me through  
A cephalad fluid shift  
Put your head under water  
And tell me where the anchor is (tell me where the anchor is)  
I can never leave a thought behind  
Forever latched to me (latched to me)  
Absorb it deep into my mind

Sail, with me through  
A cephalad fluid shift (cephalad fluid shift)  
Sail, with me (sail, with me, sail with me)  
Oh sail, with me (with me, with me)
