

Spectral Tease

Mareux

Touch your lips to mine
I won't hide behind what's normal
Is this love realized
Got me burning in your inferno
I want to you drink you down
Mix your body with the spirits and wine
Intoxicated by you
I want you whole and unrefined

Your spectral tease
Is killing me
I'm on my knees
I'm on my knees
Your spectral tease
Is killing me
I'm on my knees
I'm on my knees

This filth, this crime, the thrill, sublime, the starless night
s before me
I want respect, this spider web, this brokenness that haunts me
This filth, this crime, the thrill, sublime, the starless night
s before me
I want respect, this spider web, this brokenness that haunts me

We should go somewhere, to be alone
Down the darkest alleys, in the catacombs
I want to strip you down, to the bone
I want to feel what I've missed for so long

Your spectral tease
Is killing me
I'm on my knees
I'm on my knees
Your spectral tease
Is killing me
I'm on my knees
I'm on my knees

This filth, this crime, the thrill, sublime, the starless night
s before me
I want respect, this spider web, this brokenness that haunts me
This filth, this crime, the thrill, sublime, the starless night
s before me
I want respect, this spider web, this brokenness that haunts me
