

## Summertime

Mareux

You say a lot for someone who isn't there  
You do a lot for someone who doesn't care  
I know it's only been seven years  
But I'm still broken that you disappeared

Summertime is boring  
When you're always locked inside  
I was hoping that you'd show me  
A way to walk  
A way to walk away

I don't know why I've missed you lately  
But you gave me something that I've been craving  
I never asked you for a second chance  
'Cause being alone was always in my plans

Summertime is boring  
When you're always locked inside  
I was hoping that you'd show me  
A way to walk  
A way to walk away
