Underground

Mareux

Keep hiding from me
There's nowhere left to go
I'm climbing to the surface
I'm crawling out that smoke

But you're barely holding on
In a world of false reflection
Keep looking for yourself
Never got enough attention

Get you out of here
I'll get you out of here

Cover me in gold
I'll hold you to the ground
Help me up again
From out the underground

Hide from every one of your friends
The people in the graves and coffins
Six feet underground rotten
Cold earth numbs the pain again

Keep hiding from me
There's nowhere left to go
I'm climbing to the surface
I'm crawling out that smoke

But you're barely holding on
In a world of false reflection
Keep looking for yourself
Never got enough attention

Cover me in gold
I'll hold you to the ground
Help me up again
From out the underground
