

## Start The Fire

Margaret Becker

Well tonight's the night  
We've got to get this right  
We are lifting up our love  
To the Lamb of God  
Make a righteous noise  
Together as one voice  
We'll let Him know that we are hear  
To be a burning legacy of love to Him

Start the fire  
Strike the match and heat up your heart  
Start the fire  
Let it burn until we make a mark  
Start the fire  
Let it turn into a raging flame  
You'll see, you'll never be the same  
Once you start the fire

Got to make this clear  
He brought us hear  
And you and I are bonded by  
The mighty Son of God  
So let the praise begin  
Start by looking at Him  
And bring Him all our energy  
Use this night to let Him know how much we care

God is here  
Waiting to move  
We are here  
To worship Him
