

It Will Be Lovely Day

Margaret

It will be lovely day
You see this life glow
now you can fly away
leave the rest below

Hey, you better look around
And note this perfect time
Don't look on feet on ground
Cause you can start reaching the sky

It will be lovely day
you see this life glow
now you can fly away
leave the rest below

Hey, baby, we are an innocents
Like people always are
Hey we have to take a chance
And You shouldn't love from afar

And i hope
We can cut all the past
Calm down this shaking hearts
Yes i hope
This is like a good forecast
And we can start dreaming about

Yes i know

It will be lovely day
you see this life glow
now you can fly away
leave the rest below

Baby, again!

It will be lovely day
you see this life glow
now you can fly away
leave the rest below

If you meet somebody
Better tell her "I'm not alone"
if you don't - i can tell you - no more
no no more

After tremendous rain
Even bad fog always goes
We can see only haze
Filling us and our souls

Baby, again!

It will be lovely day
you see this life glow
now you can fly away
leave the rest below

Don't you think?

It will be lovely day
you see this life glow
now you can fly away...
