

VAX - 6 in the morning

Margaret

Imma dance with who I like
taking one just for the night
kill me softly with your lies
only touch me like you're mine

You got me halfway
by saying my name
the way you do
my song on replay
let's make some mistakes

Till' 6 in the morning
when the wrong things feel right right
6 in the morning your hands on my waist line, waist line
Till' 6 in the morning rock the boat till we capsize alright
6 in the morning you're just what I like
boy at this hour my body don't lie no oh

When the night turns into day
put my secrets on display
watching u baby watching me
crash into me like a tidal wave

Till' 6 in the morning
when the wrong things feel right right
6 in the morning your hands on my waist line, waist line
Till' 6 in the morning rock the boat till we capsize alright
6 in the morning you're just what I like
boy at this hour my body don't lie no oh

You got me halfway
by saying my name
the way you do
my song on replay
let's make some mistakes

Till' 6 in the morning
when the wrong things feel right right
6 in the morning your hands on my waist line, waist line
Till' 6 in the morning rock the boat till we capsize alright
6 in the morning you're just what I like
boy at this hour my body don't lie no oh
