

# Time Machine

Margo Price

I get lost in the conversation  
Remembering a memory with you  
Boredom drives my imagination  
Into places I never knew

I want to find what's hiding on the inside  
I want to feel reality  
Let's go back when everything was all right  
I want to ride in a time machine

When did this all go so wrong  
I gave you everything  
Been waiting around for so long  
Nothing is ever going to change

I want to find what's hiding on the inside  
I want to feel reality  
Let's go back when everything was all right  
I want to ride in a time machine

I want to ride in a time machine

I want to find what's hiding on the inside  
I want to feel reality  
Let's go back when everything was all right  
I want to ride in a time machine

I want to ride in a time machine  
I want to ride in a time machine
