

Butterball

Margot & the Nuclear So and So's

You've been talking to me
You've been leading me on
All night long you do it to me
Chew and spit me all out
To suit your needs

And you agree
I don't need to make you see
I don't bleed and I don't sing
I just turn the other cheek
When we fight ever night
And we do, you can't deny
I don't cry and I don't shout
I just go to throw you out
Woah oh

You've been cheating on me
I've been wishing you well
But you stayed well to do
And I'm a sorry sucker for you

And I hate this and all our friends
Its a game that never ends
Do you care that I'm scared
There's no need to be afraid
Every night turn the lights
Down to dim and out of sight
Get a clue get a job
Find a way to ease your pain
Woah oh

And you agree I don't need
I don't need to make you see
I don't bleed I don't sing
I just turn the other cheek
When we fight every night
And we do you can't deny
I don't cry I don't bow
I just go to throw you out
