

Freak Flight Speed

Margot & the Nuclear So and So's

Wide eyed stayed awake
let's have some fun
if I'm discovered at your place
all bets are off

I know nothing's gonna work right
strung up
dancing on a freak flight
hold on
baby get your hair back down

won't stop metal friend
while the moon's still red
let's get carried away
let's lose our heads

you're on my side
when I lose my mind
when I get carried away
and I take my time

I know nothing's gonna work right
strung up
dancing on a freak flight
hold on
baby get your hair back down
cause I need you now [x3]

Wide eyed stayed awake
let's have some fun
If I molest you in this state
all bets are off

I know nothing's gonna work right
strung out
dancing on a freak flight
hold on
baby get your hair back down
cause I need you now [x6]
