

Kim

Margot & the Nuclear So and So's

Come and take me on
Cause I have to make that wrong
Thursday night is cold
And NBC can't fill the void

Kimberly, the moon is shining bright
I have wanted you all of my life
Kimberly, I'm just a lonely boy
All I ever wanted was to know you

So you like your job
Walking dogs around New York
I could give you more
Than you've ever had in store

Kimberly, the moon is shining bright
I have wanted you all my life
Kimberly, I'm just a lonely boy
All I ever wanted was to know you

Kimberly, the moon is shining bright
I have wanted you all of my life
Kimberly, I'm just a lonely boy
All I ever wanted was to know you

What is it that makes you think to start
Making plans to go and break my heart
Kimberly, forever more I'm yours
All it takes to please me is your smile
