

When You're Gone

Margot & the Nuclear So and So's

When you're gone
I drink tapwater
and I sleep on the couch
It's nice
I smoke more weed

I miss you when you're gone
and I always act dumb
when you're gone [x4]

When you're gone
I drink, and wait, and listen
until you get home
It's fine
I smoke in the house

I miss you when you're gone
but I always have fun
when you're gone [x4]

I miss you when you're gone
but I get so much done
I get whole TV series watched
finish bottles of lemonade
run through snow with holes in my socks
and I stay up for Conan

When you're gone [x3]
