

Better than that

Maria Arredondo

I can see it in your eyes
You're not satisfied, maybe you should
Give it up, maybe you should make it stop
You say you're doing fine, she's one
Of a kind, but baby I know
Better than believing a white lie

Baby she will tell you that she cares,
Tell you that she always will be there
But baby that don't matter, 'cause
I can love you better than that
Baby even one rainy day
I would never ever walk away
Don't believe a word she says, 'cause
I can love you better than that

My friends keep asking me, so
Then who is he, the one that
Takes your br /eath, takes your
breath away, but it's so hard for
Me, to tell them how I feel
'Cause he's with someone else instead
Of me

Baby she will tell you that she cares,
Tell you that she always will be there
But baby that don't matter, 'cause
I can love you better than that
Baby even one rainy day

I would never ever walk away
Don't believe a word she says, 'cause
I can love you better than that

I can love, I can love you better
I will do anything for you
I can love, I can love you better
So give me a chance

I can see it in your eyes
You're not satisfied, maybe you should
Give it up, maybe you should stop

Baby she will tell you that she cares,
Tell you that she always will be there
But baby that don't matter, 'cause
I can love you better than that
Baby even one rainy day
I would never ever walk away
Don't believe a word she says, 'cause
I can love you better than that
