

Hold On My Heart

Maria Arredondo

I'd cross the universe for one touch
Your touch - yet that as such
Would never really quite be enough

One touch is not enough
And it feels like a light-year since I saw you
And I don't want to hurt like this
I went through an ice age before you
Now the meltdown begins

You've got a hold on my heart
My heart is holding you
You've got a hold on my heart
Can you feel the beatings for us two?

I would leave this world right now
Just to be by your side
And feel your body curled against mine
All mine, You're all mine

And it feels like forever since the big bang
With no space between our hearts
And it feels like it's over
But I'm hoping - it's just the start

Cause you've got a hold on my heart
My heart is holding you
You've got a hold on my heart
Can you feel the beatings for us two?

I just want to breath you in
I don't know where to begin
I just want to hold you close
I miss you so, Ooh...

You've got a hold on my heart
My heart is holding you
You've got a hold on my heart
Can you feel the beatings for us two?
You've got a hold on my heart
My heart is holding you
You've got a hold on my heart
Can you feel the beatings for us two?
