## Maria McKee

IDve got a thing for you baby always have Never knew how far my heart would take me SheDs my friend but she treats you bad CanDt let that happen to such a decent man If you let me in, let me stay a while ID11 do more than make you smile Come to me child

IOm gonna soothe you
Hey baby
I know just what to do
My baby

DonOt worry, I wonOt do you any harm
My touch is gentle, my body is warm
Lift your head, feel my cool hand on your face
Let me kiss your tears away
If you let me in, honey let me stay
Lay your head on my breast
IOll do the rest

I□m gonna soothe you Hey baby I know just what to do My baby

Can you feel it
Comino down like a trance
Forget your head remember how to dance
Can you feel it
Comin down like healino
So deep, it just couldnot be a sin, now Baby

Walk on in, baby come on in Make yourself at home in my arms

IDm gonna soothe you
Hey baby
I know just what to do
My baby
