

## Winter Solstice

**Maria Taylor**

If you're happy then I'm alright  
If you're scared, then I'll shine the light  
My fear's tucked in this white balloon, I let it go for you

If you need me, I'm here all day, all night  
If you did wrong, let's make it right  
My storm's locked in this white balloon, I let it go for you  
(I let it go for you)

Winter solstice  
(I let it go for you)  
Guessing new chance

If you're happy, then I'm alright  
I'll sing to you every night  
As the sun sets in the desert sky, I'm humble by the light  
I'm humble by the light  
I'm humble by the light
