

## Camouflage

Mariah Carey

I remember so many nights in the bed alone  
One where I coulda messed up the strength to exist in the bid o  
f cold  
But you showed up once in a while, I guess that's alright  
'Cause I told my heart that you needed time for yourself, it's  
fine  
I cannot flash my tears in the way you disguise  
And I then go to know that you still love me  
(I need to know, say that you do)  
To know if you still love me  
(I need to know, say that you do)

Where is sometimes when I try to decide my reality  
Wish that I just could be something else if you talk to me  
And praying inside that I'm loved for who I am  
Please follow  
But you where just somewhere the sun couldn't reach  
Couldn't understand  
I cannot flash my tears in the way you disguise  
And I then go to know that you still love me  
(I need to know, say that you do)  
To know if you still love me  
(I need to know, say that you do)

Didn't we swear we give each other everything  
Didn't I give you all of me  
Oh oh oh  
No matter day goes by  
No no no  
When I, when I'm better inside  
If you feel [?], if you feel still feel  
[?]  
In the way you disguise  
And run, and run, I flow

(I need to know, say that you do)  
(I need to know, say that you do)  
That's all I really want it  
Tell me that you love me  
Laugh and laugh at the question  
When I need to know
