

## O.O.C.

Mariah Carey

Forever and ever  
Forever and ever  
Forever and ever  
Forever and ever  
It's forever  
It's forever  
It's forever  
It's forever

Baby, no matter how long it be  
We never lose that chemistry  
And it's the strongest thing  
I've ever experienced  
So sorry, what ever happened to empathy  
I know you motherfucker feel like we  
When you're messin' with the one  
True lover that make you O.O.C.

[Chorus]  
Even though I've been gone for a minute  
It's wrong I admit it  
Your love's so addictive that  
I get so O.O.C.  
Out of control baby  
Although we've both moved on to another  
Still long for each other  
It's wrong but eternally  
I get so O.O.C.  
And that's just the way it be

Forever and ever  
Forever and ever  
Forever and ever  
Forever and ever  
It's forever  
It's forever  
It's forever  
It's forever

Baby, every time you touch me  
Still get that electricity  
And after all this time  
It don't even make no sense

So s'cusa me, te quiero mucho papi  
Je ne sais pas mais c'est la vie  
When you're messin' with the one  
True lover that make you O.O.C.

[Chorus]

Forever and ever  
Forever and ever  
Forever and ever  
Forever and ever  
It's forever  
It's forever

It's forever  
It's forever  
It's forever  
It's forever  
It's forever  
It's forever

You're out of control  
I'm out of control  
Bounce on 'em, just bounce on, come on.

[Chorus: x2]
