

# Sweetheart

Mariah Carey

Boy haven't you noticed  
A gleam in my eye  
Because of you  
I'm a little hypnotized  
But every time you're with me  
I feel so positive  
Now with a little love  
Something's got to give

[BRIDGE:]

A full moon (yeah yeah)  
Is waiting in the twilight  
Maybe soon  
You will come to be my night  
Here we are  
Hoping that we never part  
Stay with me

[HOOK:]

Baby, won't you be my sweetheart  
We could share a storybook romance  
Won't you be my sweetheart  
We could share a storybook romance  
(What you think about,  
What you think about you and me baby going one on one)  
Just you and I

You are no Casanova  
I know that you'll be true  
And that's why  
I'm so in love with you  
But each romantic ending  
You leave me at my door  
But tonight  
I'd like us to explore

[BRIDGE]

[HOOK]

Stars are bright  
Mood is right  
(Say what MC baby sing it to me)  
To keep me warn away from harm  
Nowhere better than my baby's arms

Stars are bright  
Mood is right  
(Say what MC baby sing it to me)  
To keep me warn away from harm  
Nowhere better than my baby's arms

[HOOK]

Let's get together  
Live happily ever after  
No one to make us sad

Oh baby  
You know I need your love  
Romance
