

Brain

Mariah the Scientist

Wonder why my brain scattered
Damage in the grey matter
Fuckin' up my wave pattern
Fuckin' up my day, yeah
Wonder why my brain splattered
Jumpin' from the same ladder
Put me in my grave faster than I get to space, it's

All in my mind, all of the time
I am goin' crazy (My mind)
All in my head, and it never ends
It's always rainin' (My mind)
Hidin' in my brain
Feelings of mine and figments of my imagination

Wonder if I seemed insecure, you were
Makin' music for your Teenage Tour, and you
Came home from the studio, and you
Found me on your bathroom floor
I just couldn't take no more, I just
Wanted to escape for sure, I was
Starin' out the big window, but I
Should've locked the bedroom door, it's

All in my mind, all of the time
I am goin' crazy (My mind)
All in my head, and it never ends
It's always rainin' (My mind)
Hidin' in my brain
Feelings of mine and figments of my imagination

Hidin' in my brain
Feelings of mine and figments of my imagination
