

## eat u alive

Marian Hill

It's a long game  
When you look like this and you talk like that  
It's a sure thing  
Once we ring that bell then we can't go back

I know you can't breathe cuz I know you're already all in  
Gotta tame these lips, know it takes one slip and I'm fallin'

I been looking on, I been biding my time  
You been looking strong with a glint in your eye  
Everybody knows if I'm given the night  
I might eat you alive, I might eat you alive, yeah

I been looking on, I been biding my time  
You been looking strong with a glint in your eye  
Everybody knows if I'm given the night  
I might eat you alive, I might eat you alive, yeah

Now it's midnight  
When we talk too late and it feels like fate  
I get stage fright  
It's so hard to see an eternity

And now I can't breathe and I know you see how I'm stalling  
I don't need this now, I should take my bow but I'm falling

I been looking on, I been biding my time  
You been looking strong with a glint in your eye  
Everybody knows if I'm given the night  
I might eat you alive, I might eat you alive, yeah

I been looking on, I been biding my time  
You been looking strong with a glint in your eye  
Everybody knows if I'm given the night  
I might eat you alive, I might eat you alive, yeah

I might (I might eat you alive)  
I might eat you alive, alive, alive  
(I might eat you alive)

I'm feeling so good sitting close to you  
I'm taught to do what I am supposed to do

And it hit me like  
So I said  
And you said  
Then we left

I been looking on, I been biding my time  
You been looking strong with a glint in your eye  
Everybody knows if I'm given the night  
I might eat you alive, I might eat you alive, yeah

I been looking on, I been biding my time  
You been looking strong with a glint in your eye  
Everybody knows if I'm given the night  
I might eat you alive, I might eat you alive, yeah

I might eat you, eat you, eat you...  
I might eat you alive, yeah
