

everything i'm missing

Marian Hill

I hate to start the conversation
So I might need you to be patient
And I know that I want to, I like you
I want to tell you things
But the second I start to, I can't move
I'm floating out to sea

Now I know I've been going on too long
And I know we got something going on

I know I've been a little distant
Too scared to make the wrong decision
Please show me everything I'm missing

I know I've been a little distant
Too scared to make the wrong decision
Please show me everything I'm missing
Everything I'm missing

I'd like to be your favorite person
But I'm afraid to put the work in
Cuz I know if I start to, I crumble
In insecurities
And if I don't tip toe, we both know
The slope is slippery

Now I know I've been going on too long
And I know we got something going on

I know I've been a little distant
Too scared to make the wrong decision
Please show me everything I'm missing

I know I've been a little distant
Too scared to make the wrong decision
Please show me everything I'm missing
Everything I'm missing
Everything I'm missing
