

Lovit

Marian Hill

Suit black as ink
I bet I know your drink
Everything you pray for, everything you play for

Baby turn around
Mind if I sit down
Everything you pray for,
Everything you play for me

I la la la la love it
I la la la la love it
I la la la la love it, love it, love it love

You got a sexy sound
you want another round
I like the way you play boy
Tell me why you play boy

Does it make you feel
Like nothing else is real
I like the way you play boy
Show me why you play boy

I la la la la love it
I la la la la love it
I la la la la love it, love it, love it love

I la la la la love it
I la la la la love it
I la la la la love it, love it, love it love

I la la la la love it
I la la la la love it
I la la la la love it, love it, love it love

I la la la la love it
I la la la la love it
I la la la la love it, love it, love it love
